

CollaTight CT-5 —

5 - minute , Instant Lifting

1 month , long-lasting firmness

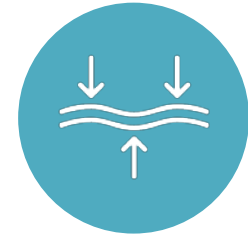

What is Collagen ?

- triple helical structure
- three independent collagen peptide chains held together by hydrogen bonds

- Strong tensile strength
- The main component of the extracellular matrix
- The aging of collagen causes wrinkles

- Accounts for about 20% of total protein in mammals
- a very important protein in the human body and is mainly found in connective tissue

5-minute, Instant Lifting

Marine Peptide

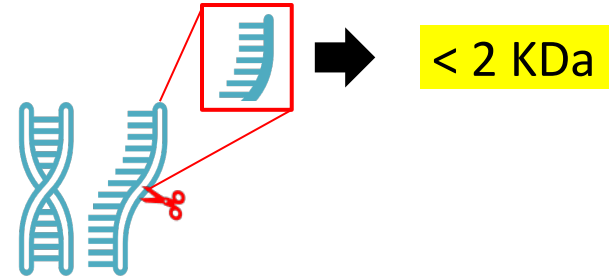

NEO-White™ :

Through enzyme cleavage-tech, the animal – derived collagen would be separated into the small molecules, which can better adhere to the skin.

Each molecular weight of collagen peptide are below 2 KDa.

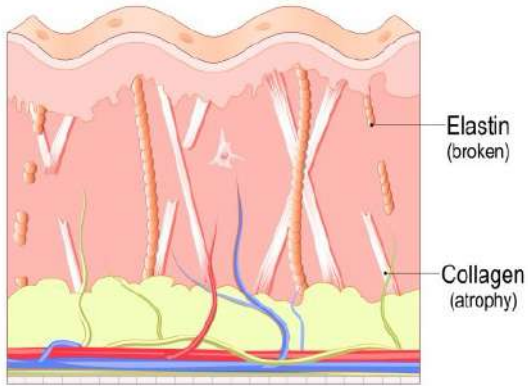

Natural marine peptides provide instant lifting and firming, redefine your jawline.

Fully absorbed and non-flaking

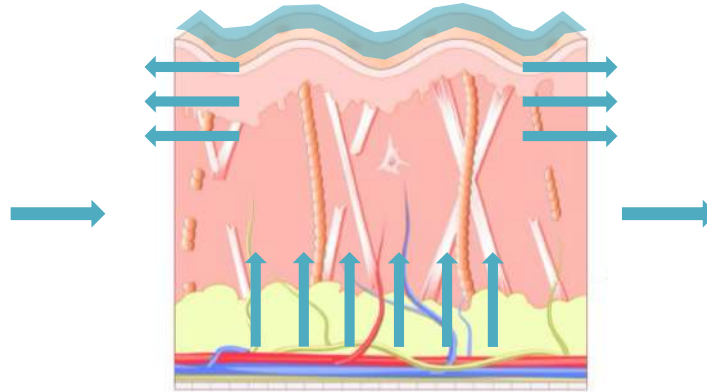

5-minute, Instant Lifting

CollaTight CT-5

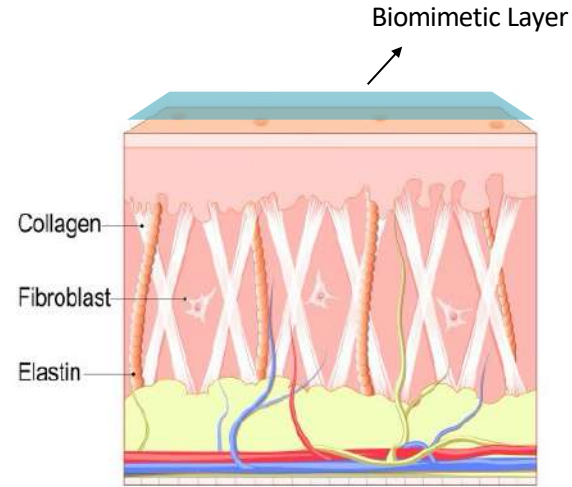

Sagging Skin

Forms a biomimetic layer, lifts from the outside

Stimulates collagen production, firms skin from the inside

Remove Wrinkles
