In the heart of Hamburg: The headquarters of TER INGREDIENTS GMBH & CO. KG

ISO 9001

Business Sustainability Rating

TER Ingredients is a leading supplier of high-grade ingredients and additives in various life science applications. The company provides a comprehensive product portfolio sourced globally to serve customers in the food, feed, personal care, health care, home care and other specific industries with focus on deliveries to Europe.

We are specialized experts in logistics, quality management, sales and purchasing. We cooperate with reputable manufacturers and their product development teams. We offer combined deliveries of food- and other ingredients in time according to complex requirements derived from regulatory compliance, documentaton requirements and specification parameters.

Convince yourself of our certified services and contact us today! Ensure your success with our first-class products and customized solutions!

Amino Acids

Product name	Country of origin	Description	Potential applications	Availability for countries	Pharmacopeias
Glycine	China	Glycine is the simplest stable amino acid. The principal function of glycine is it acts as a precursor to proteins.	buffering agent stabilizer solubilizer	all	USP
L-Arginin Base	Indonesia	Arginine is an amino acid with several pharmaceutical applications. It is a precursor to nitric oxide (NO), a molecule that plays a crucial role in regulating blood vessel tone and blood flow.	dietary supplement nutrition	all	EP / USP
L-Carnitin	China	L-carnitine, also known simply as carnitine, is an amino acid derivative that plays a crucial role in energy metabolism, particularly in the transport of fatty acids into the mitochondria, where they are oxidized to produce energy.	dietary supplement nutrition	all	USP
L-Glutamine	China	L-glutamine is valued in pharmaceutical applications for its diverse physiological functions, including its role in gastrointestinal health, immune support, muscle recovery, wound healing, and potential neuroprotective effects. It is considered safe and well-tolerated when used appropriately.	dietary supplement nutrition	all	FCC
L-Isoleucine	China	L-Isoleucine is one of the essential amino acids, meaning the human body cannot produce it on its own, so it must be obtained from the diet. It is classified as a branched-chain amino acid (BCAA) along with L-leucine and L-valine.	dietary supplement nutrition	all	USP24
L-Leucine	China	L-leucine is an essential amino acid commonly used as an excipient or additive in pharmaceutical formulations. It can serve various purposes such as improving the stability, solubility and bioavailability of drugs.	dietary supplement nutrition	all	USP24
L-Lysine	China	Essential amino acid that reacts alkaline and is known to accelerate the effect of several painkillers. Lysine significantly increases the hydrophobicity and can produce new properties in rinse-off preparations using a strongly alkaline phase. Lysine exhibits antibacterial and anti-inflammatory properties.	dietary supplement nutrition	all	USP
L-Menthol	India	Levomenthol is the naturally occurring form of menthol. It has a strong cooling effect to the skin.	topical analgesic flavoring agent decongestant	all	BP / USP / EP
L-METHIONIN	China	L-methionine is an essential amino acid used in various pharmaceutical applications due to its specific biochemical properties.	dietary supplement nutrition	all	USP
L-Valine	China	Essential amino acid with various pharmaceutical applications.	nutrition dietary supplement	all	USP24
L-Valine	China	Essential amino acid with various pharmaceutical applications.	nutrition dietary supplement	all	USP24

Antifoam / Foam

Product name	Country of origin	Description	Potential applications	Availability for countries	Pharmacopeias
AF9000NE Antifoam	UK	Used in fermentation processes, 100 % active	foam control	DACH	21CFR 173.340
BC Simethicone Antifoam PD30S*	UK	Used in fermentation processes, 30 % active, water compatible	foam control	DACH	*API GMP certified
Esca FD20PK Antifoam	UK	Used in fermentation processes, 20 % active, water compatible	foam control	DACH	21CFR 173.340 / FSSC 22000
Esca FD30K Antifoam	UK	Used in fermentation processes, 30 % active, water compatible	foam control	DACH	21CFR 173.340 / FSSC 22000
Esca FDK Antifoam	UK	Used in fermentation processes, 10 % active, water compatible	foam control	DACH	21CFR 173.340 / FSSC 22000
Esca Ferm-S Antifoam	UK	Used in fermentation & seperation processseses, 100 % active, sterilizable, polyol compatible	foam control	DACH	FSSC 22000
Esca NP Antifoam	UK	Used in fermentation processes, 100 % active, water compatible, polyol compatible	foam control	DACH	21CFR 173.340 / FSSC 22000
Esca NVD Antifoam	UK	Used in fermentation processes, 100 % active, water compatible	foam control	DACH	
SAG 471 Antifoam	USA	Used in fermentation processes, 100 % active, sterilizable, water compatible, polyol compatible	foam control	DACH	21CFR 173.340 / FSSC 22000
SAG 5693 Antifoam	USA	Used in fermentation processes, 100 % active, sterilizable, polyol compatible	foam control	DACH	21CFR 173.340

Energy ingredients

Product name	Country of orgin	Description	Potential applications	Availability for countries	Pharmacopeias
Caffeine anhydrous	China	Synthetic excipient which pharmacological properties make it a versatile ingredient in various pharmaceutical formulations.	drug delivery enhancer stimulant flavouring agent	all	EP / USP
Caffeine anhydrous	China	Synthetic excipient which pharmacological properties make it a versatile ingredient in various pharmaceutical formulations.	drug delivery enhancer stimulant flavouring agent	all	EP / USP
Natural Caffeine Anhydrous EP	Italy	Natural excipient which pharmacological properties make it a versatile ingredient in various pharmaceutical formulations. (100% from coffee beans)	drug delivery enhancer stimulant flavouring agent	all	EP / USP
Taurin	China	Amino sulfonic acid with several potential pharmaceutical applications due to its various physiological effects.	antioxidant	all	JP16

Flavoring

L-Menthol	India	Levomenthol is the naturally occurring form of menthol. It has a strong cooling effect to the skin.	"topical analgesic flavoring agent decongestant"	all	BP / USP / EP
-----------	-------	---	--	-----	---------------

Parabens & Paraben salts

Nipagin A	China	Preservative in powder form, which is effective in a pH range of 4 - 8.	preservative	all	Ph. Eur. / USP / JP
Nipagin A SODIUM	China	Preservative in powder form, which is effective in a pH range of 3 - 11.	preservative	all	
Nipagin M	China	Preservative in powder form, which is effective in a pH range of 4 - 8.	preservative	all	Ph. Eur. / USP / JP
Nipagin M SODIUM	China	Preservative in powder form, which is effective in a pH range of 3 - 11.	preservative	all	

Polyethylenglycols / Macrogols

Product name	Country of origin	Description	Potential applications	Availability for countries	Pharmacopeias
PEG 6000 P	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 10000	Germany	Polyethylene glycol (scales/powder) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder suppository vehicle	all	Ph. Eur. / USP
Polyglykol 12000	Germany	Polyethylene glycol (scales/powder) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder suppository vehicle	all	Ph. Eur. / USP
Polyglykol 1500 PH	Belgium	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	DACH	Ph. Eur. / USP
Polyglykol 1500 S	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 200	Germany	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	all	Ph. Eur. / USP
Polyglykol 2000	Germany	Polyethylene glycol (scales) as a humectant, solvent, softening and antistatic agent. Perfume fixator.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 20000 P	Germany	Polyethylene glycol (scale/powder) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 20000 S	Germany	Polyethylene glycol (scale/powder) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder suppository vehicle	all	Ph. Eur. / USP

Polyethylenglycols / Macrogols

Product name	Country of origin	Description	Potential applications	Availability for countries	Pharmacopeias
Polyglykol 3.000 S	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP / JP
Polyglykol 3.350 P	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP / JP
Polyglykol 3.350 PH	Belgium	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	DACH	Ph. Eur. / USP / JP
Polyglykol 3.350 PS	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP / JP
Polyglykol 3.350 S	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP / JP
Polyglykol 300	Germany	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	all	Ph. Eur. / USP
Polyglykol 300 PH	France	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	all	Ph. Eur. / USP
Polyglykol 3000	Germany	Polyethylene glycol (scale/powder) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP / JP
Polyglykol 35000	Germany	Polyethylene glycol (scales) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder suppository vehicle	all	Ph. Eur. / USP

Polyethylenglycols / Macrogols

Product name	Country of orgin	Description	Potential applications	Availability for countries	Pharmacopeias
Polyglykol 400	Germany	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	all	Ph. Eur. / USP / JP
Polyglykol 400 PH	France	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	DACH	Ph. Eur. / USP / JP
Polyglykol 4000 P	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 4000 PF	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 4000 PH	Belgium	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	DACH	Ph. Eur. / USP
Polyglykol 4000 PS	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 4000 S	Germany	Polyethylene glycol (scales/powder/flakes) as a lubricant, release agent, solvent, softener and antistatic agent. Binder and excipient for tablet production.	lubricant disintegrant coating binder	all	Ph. Eur. / USP
Polyglykol 600	Germany	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	all	Ph. Eur. / USP
Polyglykol 600 PH	France	Liquid polyethylene glycol as a humectant, solvent, softening and antistatic agent. Perfume fixator.	solvent drug carrier ointment base surfactant	DACH	Ph. Eur. / USP

Preservatives

Product name	Country of orgin	Description	Potential applications	Availability for countries	Pharmacopeias
Citric Acid Anhydrous 30-100 mesh	China	Citric Acid is a synthetic organic acid processed and widely used around the world for plentiful pharmaceutical applications.	antioxidant buffering agent flavoring agent solvent disintegrant pH modifier	all	BP / USP
Citric Acid Anhydrous 30-100 mesh	China	Citric Acid is a synthetic organic acid processed and widely used around the world for plentiful pharmaceutical applications.	antioxidant buffering agent flavoring agent solvent disintegrant pH modifier	all	BP / USP
Citric Acid Monohydrate 8-80 mesh	China	Citric Acid is a synthetic organic acid processed and widely used around the world for plentiful pharmaceutical applications.	antioxidant buffering agent flavoring agent solvent disintegrant pH modifier	all	BP / USP
Citric Acid Monohydrate 8-80 mesh	China	Citric Acid is a synthetic organic acid processed and widely used around the world for plentiful pharmaceutical applications.	antioxidant buffering agent flavoring agent solvent disintegrant pH modifier	all	BP / USP
Potassium Sorbate	China	Potassium salt of sorbic acid which is used as a synthetic preservative. Protects against yeast and mold.	preservative	all	FCC / NF
Sodium Benzoate Granular	China	Sodium salt of benzoic acid is used as a synthetic preservative.	preservative	all	BP / EP / USP
Sodium Benzoate Powder	China	Sodium salt of benzoic acid is used as a synthetic preservative.	preservative	all	BP / EP / USP
Trisodium Citrate 30 - 100 mesh	China	Citric acid salt is used as a buffer for (Mg and Ca) ions. It has anticoagulant characteristics and can help stabilize emulsions.	buffering agent chelating agent solubilizing agent emulsifying agent	all	BP / USP
Trisodium Citrate 30 - 100 mesh	China	Citric acid salt is used as a buffer for (Mg and Ca) ions. It has	buffering agent chelating agent solubilizing agent emulsifying agent	all	BP / USP

Sweeteners

Product name	Country of origin	Description	Potential applications	Availability for countries	Pharmacopeias
Inositol	China	Inositol is a naturally occurring compound that belongs to the vitamin B family and has several pharmaceutical applications.	nutrition dietary supplement	all	USP / NF
Neohesperidin DC	Spain	Neohesperidine, specifically in its dihydrochalcone form (Neohesperidine dihydrochalcone or NHDC), is primarily used as a sweetener and flavor modifier in pharmaceuticals.	sweetener / flavoring agent	all	EP / USP / JP
Sodium Saccharine	Korea	Synthetic intensive sweetener	sweetener / flavoring agent	all	EP / USP
Sodium Saccharine 20-40 mesh	China	Synthetic intensive sweetener	sweetener / flavoring agent	all	EP / USP
Sodium Saccharine 40-80 mesh	China	Synthetic intensive sweetener	sweetener / flavoring agent	all	USP
Xylitol (wood based)	China	natural sugar replacement that can be used to mask bitter and unpleasant tastes	sweetener / flavoring agent	all	EP / USP
Xylitol 10-30 mesh	China	natural sugar replacement that can be used to mask bitter and unpleasant tastes	sweetener / flavoring agent	all	EP
Xylitol 10-30 mesh	China	natural sugar replacement that can be used to mask bitter and unpleasant tastes	sweetener / flavoring agent	all	EP
Xylitol 30-80 mesh	China	natural sugar replacement that can be used to mask bitter and unpleasant tastes	sweetener / flavoring agent	all	USP34 /
Sucralose powder	China	Synthetic intensive sweetener	sweetener / flavoring agent	all	EP2368

Vitamins

Ascorbic Acid (Vitamin C)	China	Vitamin C is a very potent antioxidant. It is also the most common used dietary supplement in nutraceuticals.	antioxidant / nutrition	all	BP/USP/F-CC/EP
Ascorbic Acid (Vitamin C)	China	Vitamin C is a very potent antioxidant. It is also the most common used dietary supplement in nutraceuticals.	antioxidant / nutrition	all	BP2021/USP43/EP10/FCC12
Ascorbic Acid (Vitamin C) 97% DC	China	Vitamin C is a very potent antioxidant. It is also the most common used dietary supplement in nutraceuticals. DC grade is a special grade for direct compression f.e. of tablets.	antioxidant / nutrition	all	BP/USP/EP /FCC EP / USP

Vitamins

Product name	Country of orgin	Description	Potential applications	Availability for countries	Pharmacopeias
Beta Carotene 1% CWS	China	Beta carotene is the most important precursor of retinol (vitamin A) and is therefore also referred to as provitamin A. It a natural pigment found in plants.	nutrition dietary supplement antioxidant	all	EP / USP
Beta Carotene 10% CWS	China	Beta carotene is the most important precursor of retinol (vitamin A) and is therefore also referred to as provitamin A. It a natural pigment found in plants.	nutrition dietary supplement antioxidant	all	EP / USP
Calcium Ascorbate	China	The calcium salt of ascorbic acid is a source of Vitamin C and Calcium. It can also help to maintain the pH stability.	antioxidant supplementation stabilizer buffering agent	all	USP
Calcium D-Pantothenate (Vitamin B5)	China	The calcium salt of pantothenic acid (vitamin B5) is an essential nutrient. It also supports the skin health in topical formulations	nutrition dietary supplement topical formulations	all	USP / NF
Coenzyme Q10	China	Vitamin-like active ingredient produced through natural fermentation. Energy supplier for the cells. Has an antioxidant and anti-inflammatory effect.	nutrition dietary supplement antioxidant	all	USP / EP / JP / BP
D-Biotin (Vitamin H)	China	D-Biotin, commonly known as biotin or vitamin B7, is a water-soluble vitamin that plays a crucial role in various metabolic processes in the body. In pharmaceutical applications, D-biotin is used for several purposes.	nutrition dietary supplement	all	EP / USP
D-Biotin (Vitamin H) (min.5 kg)	China	D-Biotin, commonly known as biotin or vitamin B7, is a water-soluble vitamin that plays a crucial role in various metabolic processes in the body. In pharmaceutical applications, D-biotin is used for several purposes.	nutrition dietary supplement	all	EP / USP
DL-α-Tocopherol 96% (Vitamin E)	China	Vitamin E has a strong antioxidant, cell protecting/renewing and anti-inflammatory effect. It reduces skin damage caused by UV radiation. Thanks to its antioxidant effect, it stabilizes oils, protects them from rancidity and thereby extends the shelf life of products.	antioxidant skin care	all	EP / USP
DL-α-Tocopheryl Acetate Powder 50% CWS	China	Tocopheryl acetate is a synthetic form of vitamin E, which is a fat-soluble antioxidant. It has an antioxidant, cell protecting/renewing and anti-inflammatory effect.	antioxidant skin care	all	EP / USP
Folic Acid (Vitamin B9)	China	Folic acid, also known as vitamin B9 or folate, is a water-soluble vitamin that plays a crucial role in various physiological processes in the body. It is extremely sensitive to light and temperature and	dietary supplementation nutrition	all	USP

Vitamins

Product name	Country of origin	Description	Potential applications	Availability for countries	Pharmacopeias
Sodium Ascorbate	China	Sodium salt of ascorbic acid with antioxidant effects.	antioxidant / nutrition	all	USP
Sodium Ascorbate	China	Sodium salt of ascorbic acid with antioxidant effects.	antioxidant / nutrition	all	EP / USP
Vitamin A Acetate Powder 325,000IU/g CWD	China	Vitamin A Acetate, also known as retinyl acetate, is a synthetic form of Vitamin A. The powder form is cold water diluble.	dietary supplement nutrition	all	EP / USP
Vitamin B1 Base / Thiamin Base	China	Thiamine is an essential nutrient with various pharmaceutical applications, particularly in the treatment and prevention of thiamine deficiency-related conditions, neurological disorders and certain metabolic disorders.	dietary supplement nutrition	all	EP / USP
Vitamin B1 HCL / Thiamin HCL	China	Thiamine is an essential nutrient with various pharmaceutical applications, particularly in the treatment and prevention of thiamine deficiency-related conditions, neurological disorders and certain metabolic disorders.	dietary supplement nutrition	all	EP / USP
Vitamin B1 HCL / Thiamin HCL	China	Thiamine is an essential nutrient with various pharmaceutical applications, particularly in the treatment and prevention of thiamine deficiency-related conditions, neurological disorders and certain metabolic disorders.	dietary supplement nutrition	all	EP / USP
Vitamin B3 / Nicotinamid	China	Nicotinamide (also niacinamide) is the amide of nicotinic acid (niacin, vitamin B3). It has diverse physiological functions, including its role in the treatment and prevention of pellagra, management of hyperphosphatemia, topical treatment of various skin conditions.	dietary supplement nutrition	all	EP / USP
Vitamin B6 / Pyridoxin Hydrochlorid	China	Vitamin B6 is valued in pharmaceutical applications for its diverse physiological functions, including its role in preventing deficiency, supporting cardiovascular health, alleviating symptoms of nausea and vomiting in pregnancy, managing premenstrual symptoms, and potentially improving neurological and dermatological conditions. It is considered safe and well-tolerated when used appropriately.	dietary supplement nutrition	all	EP
Vitamin B6 / Pyridoxin Hydrochlorid	China	Vitamin B6 is valued in pharmaceutical applications for its diverse physiological functions, including its role in preventing deficiency, supporting cardiovascular health, alleviating symptoms of nausea and vomiting in pregnancy, managing premenstrual symptoms, and potentially improving neurological and dermatological conditions. It is considered safe and well-tolerated when used appropriately. anticoagulant characteristics and can help stabilize emulsions.	dietary supplement nutrition	all	EP / USP

Waxes

Product name	Country of orgin	Description	Potential applications	Availability for countries	Pharmacopeias
bees wax white EP/USP	Netherlands	Natural bees wax. Available in yellow & white.	coating thickener emulsifyer	all	EP / USP
bees wax yellow EP/USP	Netherlands	Natural bees wax. Available in yellow & white.	coating thickener emulsifyer	all	EP / USP
Carnauba Wax T1 Pastillen	Brazil	Natural hard wax with a high melting point. Is easy to emulsify and increases the viscosity of the formulation or serves as a consistency agent.	film coating glidant polishing wax	all	EP
Carnauba Wax T1 Premium Powder	Brazil	Natural hard wax with a high melting point. Is easy to emulsify and increases the viscosity of the formulation or serves as a consistency agent.	film coating glidant polishing wax	all	EP
WARADUR XE	Germany	"WARADUR® XE (DAB: Cera montanglycoli; INCI: Glycol Montanate) is a montan ester wax. Montanic acids are straight, long-chained monocarboxylic acids, which in WARADUR® XE are esterified with ethylene glycol. Listed in DAB Monography: “Cera montanglycoli”"	retardant polishing wax coating	DACH	DAB
